

## DB100 - BLOW LABELLING

DB100 is ideal where non-contact labelling is preferred (like on bread, groceries etc) - and where the distance to product is short. The DB100 is therefore seen in many bakeries and in other kind of food industries.

The DB100 has the reliable, robust and easy to use design - as seen on all the Mectec family machines. It is proven to give you 24 hours reliable labelling for many years to come - even in the most harsh industrial environments!

Labelling on different kind of products. Applies on on both moving and stationary products!

The applicator can be opened for service etc.

Printer and applicator in left hand version

Handheld terminal TG300 (optional)

Printer Control Unit PCU III

### TECHNICAL DATA

<b>Type of applicator:</b>	Blow
<b>Blow box size:</b>	100 x 100 mm
<b>Print speed:</b>	Up to 275 mm/sec
<b>Resolution:</b>	8 or 12 dots/mm 200/300 DPI
<b>Interface:</b>	2 x RS232, 1 x RS485, 1 x USB 2.0 (Ethernet optional)
<b>Overall dimensions:</b>	597 x 506 x 234 mm (l x h x w) - P & A 406 x 265 x 128 mm (l x h x w) - PCU III
<b>Controller functions:</b>	On-Line and Stand Alone operation, 2 x 20 characters display, 9 keys, 11 status LEDs. 24 Inputs, 26 Outputs. Real time clock, counters, date offsets and much more...!
